

## **Sangam Fasteners Private Limited**

### **Company Profile**

#### **COMPANY OVERVIEW**

Sangam Fasteners Private Limited is an industrial fastener manufacturing company incorporated in 2000 and operating from Hubballi, Karnataka, India.

The company manufactures standard and custom industrial fasteners for engineering, infrastructure, automotive, heavy engineering, and OEM customers who require dimensional accuracy, material reliability, and repeatable supply.

#### **MISSION**

To manufacture industrial fasteners that customers can approve with confidence and source repeatedly, without disruption to their production, quality, or delivery commitments.

#### **VISION**

To be a trusted long-term fastener manufacturing partner for OEMs and industrial customers by consistently delivering stable manufacturing output, specification-driven execution, and predictable supply behavior.

#### **OPERATING PRINCIPLES**

- Manufacturing Discipline – Processes are defined and followed to ensure consistency.
- Specification Respect – Drawings and technical requirements are executed as approved.
- Accountability – Clear responsibility for quality and delivery.
- Long-Term Thinking – Focus on repeat supply and continuity.
- Professional Communication – Clear and timely technical and commercial engagement.

#### **PRODUCT PORTFOLIO**

- Bolts & Hex Bolts
- Nuts
- Studs & Double-Ended Studs
- U-Bolts
- Threaded Components
- Custom Fasteners as per drawings and specifications

## ENGINEERING & QUALITY

Manufacturing and quality control are integrated into daily operations. Focus areas include controlled manufacturing processes, material suitability, in-process inspection, thread and dimensional verification, and final inspection prior to dispatch.

The objective is to supply assembly-ready fasteners with consistent performance across repeat orders.

## INDUSTRIES SERVED

- General Engineering
- Infrastructure & Construction
- Automotive & Auto Components
- Heavy Engineering
- OEM Manufacturing

## WHY SANGAM FASTENERS

Customers work with Sangam Fasteners because of predictable manufacturing behavior, adherence to specifications, controlled quality, and long-term supply stability.

The company focuses on reducing supplier-related risk and supporting stable customer operations.
